

Alert. Warn. Communicate.

Easily programmed by a hand held remote or directly from your PC.

Communicating your message just took a giant leap forward.

With the Edwards Message Center you can now communicate important safety, production or any other timely messages to any audience instantly and effortlessly.

And all your Message Centers can be fully controlled with the included Wireless Remote Programmer or via any IBM-compatible PC with associated software and hardware. It may be used as a single stand-alone message center or networked into a workplace communication system.

Message Centers are available that display up to 200 characters, store up to 81 messages, feature up to 5 message speed settings and up to 26 operation modes. And its multi-color LED lamp technology is rated for up to 100,000 hours of maintenance-free use.

Alert. Warn. Communicate, educate even motivate. No other communication device gives you all this power for such a modest investment as the Edwards Message Center.

You're already accustomed to innovative Signal SolutionsSM from Edwards. Now discover the power of networkable messaging - your first step in better communication in the workplace.
